DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 9/7/00 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

3. The following title is suggested: "Video Processing of a Quantized Base Layer and One or More Enhancement Layers".

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

Art Unit: 2613

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamaguchi et al (5,818,531) for the same reasons as set forth in Section 8 of the last office action, paper number 7, dated 5/22/03.

Response to Arguments

6. Applicant's arguments filed 7/22/03 have been fully considered but they are not persuasive.

In response to applicant's challenge on page 12 of the Remarks that the MPEG standard gives higher transmission priority to lower frequency terms, it is submitted that column 6, lines 1-11 of newly cited reference of Boyce (6,317,462) is responsive to Applicant's challenge in support of Examiner's position that transmission priority given to provide priority to the units which have more visual impact is notoriously well known in the MPEG compression art.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 2613

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

8. **Any response to this final action should be mailed to:**
